

Cullman County Water Department
P.O. Box 1084, Cullman, AL 35056 ~ 256-734-2900

The Cullman County Water Department has conducted extensive research throughout the water system in the past several years regarding Lead service lines. We have concluded that our water system is free of any lead mains or service lines. Past records and daily maintenance were the primary source of this conclusion. Periodic Lead and Copper sampling has been conducted for many years with no lead detection. We strive to make sure your drinking water is as safe as possible by continued routine sampling.

Sincerely,

A handwritten signature in black ink, appearing to read "Randall Waldrep".

Randall Waldrep

Cullman County Water Department Manager
